

**OATMEAL  
STOUT**  
..NITRO..

## SUMMIT OATMEAL STOUT

A taste you won't find everywhere.

### Behind the brew:

- Draught-only, available in select locations
- Brewed with naked oats from the UK for a decidedly different stout flavor
- Smooth and slightly sweet, with hints of coffee, caramel and chocolate
- Beautiful cascade pour thanks to nitrogen/CO<sub>2</sub> mixed gas taps

### Specs
